

Purpose

The purpose of the on-line quoting system is to help obtain all the frame and exhibit base details necessary to quote a project. At the end of your session, you will have the opportunity to review your entries, delete entire entries with errors, and input corrected entries. After your review, you will be able to print your quote request. The quote request will be received by BEST-EXhibits and a spreadsheet will be created. This new document will become the basis for your quote, with revisions per your request. You will not automatically get pricing following the submittal of your quote. Your quote will be reviewed by a BEST-EXhibits representative and you will be contacted for further information either by phone or email.

If you do not see the display system you require, please contact us directly. This system is only for our standard items. We do a lot of custom work and would like to discuss your specific project.

The quoting system has been set up to accept the information you may have for your project, but entries can also be left blank. These blanks can be completed at a later date with your BEST-EXhibits representative. For example, if you are unsure of the quantity of frames required of a certain size, leave the quantity cell blank and continue to the next step. If you are not sure how you want to display your sign panel, it would be best to talk directly with us and your panel manufacturer before you use on line quoting.

You can mix and match exhibit styles as you desire. Before using the on-line quoting, you should know how you want to display your sign panels and your sign panel manufacturer's requirements for display.

If you have any difficulty using this quoting system, please contact us and we will be happy to take your information by phone or email.

After you have printed your quote overview, return to the main menu to submit your quote. Click on Obtain Quote! You will be asked various contact information to complete as you are able. At the end you will have the option to print your quote request and submit your quote request. You can also save your quote to your computer using your "file" and "save as" commands.

Page 2 has general instructions for the quoting system. Not all attributes are available for all mounting styles, so the actual steps may vary slightly between mount styles. After completing these 5 steps for each product, you can either return to the main menu and add additional items, or submit your quote request.

General Instructions

Step 1 – BEST-EXhibits Product Selection and Quantity:

Choose the BEST-EXhibits exhibit base or pedestal you want to use to display your panel. If you are unsure of which product you prefer, review the main web pages found on the left side of the page. Choose the quantity you require for this product.

Step 2 – Panel Size

Enter the dimensions of the panel you are using for the exhibit base or pedestal you have selected.

Step 3 – Select Your Mount Style

The pull down arrow will display the various mounting options, select the mount style from this list. You can scroll thru the illustrations at the bottom of the page to confirm you have chosen the correct mount style. When your cursor is over an illustration you can select the icon to print or save this illustration. If you click on the illustration, it will open in a separate page in a very large screen for you to scroll thru and review. To close this large screen, click the red x at the top right of the screen.

Step 4 – Select Your Mount Angle

Step 5 – Final Step

This is the selection of the finish and finish color you prefer for your BEST-EXhibits product.

Submit to your quote package and return to your main menu.

Click on the above option and you will see a summary of your quote. If you need to add to the quote, return to the main menu and do so. If you have made an error, you will have the opportunity to delete the entry and enter a new entry very soon. Click on the return to the main menu option.

Quote Overview

Click on Quote Overview to have another opportunity to review your quote or delete entries. To enter correct entries, return to the main menu and begin at Step 1 again.

Print Quote Overview

Click on this option for a copy of your quote. **Return to the main menu** to continue.

Obtain Quote

Scroll to the bottom of the main page and select this option. Please proceed thru the additional steps to enter contact information for your quote. If you are on a “fact finding” mission, you may only choose to enter your email and phone number. If you are looking to get a formal quote, please enter as much information as possible. For shipping estimates we do require a ship to zip code. After completing this section, you can print your quote again or submit your quote. If you print your quote, it will also automatically submit.

Thank you for using this quoting option. Any comments you may have to improve this section or these instructions are appreciated!
